

**Veronica Vera BSN, RN
Secretary WW-NAHN
Nurse Manager**

I am very honored to serve as your Western-National Association of Hispanic Nurses Treasurer. My name is Veronica Vera; I was born in Los Angeles to immigrant parents from Mexico. I am a mother of 3 children, ages 23 years, 17 years and 12-year-old. I currently became a licensed Registered Nurse and am extremely excited to begin my journey as a Registered Nurse.

Before becoming a RN, I was a Medical Assistant for several years. I worked for a private practice, Public Health and Group Health. I became aware of the needs many Hispanic families faced when it came to medical needs.

This awareness gave me the push I needed to set forth my journey to get my RN license to help my Latinx community. I proudly joined WW-NAHN because their mission fits my mission. I will proudly advocate and promote for health awareness and lead to the best of my ability for our community. Being a Board Member will help me understand the health disparities in our community and will give me the opportunity to guide those who are wanting to advance their educational careers as much needed Registered Nurses for our community. I am excited to be part of this amazing Association and look forward to growing with WW-NAHN.
